

# BRUNO DELNOZ

## AI Architect / Artificial Intelligence Consultant | GenAI, RAG, Data & Cloud Integration

30+ ans IT & architecture | 5+ ans IA/GenAI intensive | API, securite, cloud hybride, gouvernance data

Rochefort, Belgique | Walloon Region / Brussels / Hybrid | bruno.delnoz@protonmail.com | +32 456 88 24 57 | github.com/bdelnoz | linkedin.com/in/bdelnoz

### PROFIL CIBLE - AI ARCHITECT POUR DICE

Architecte IA pragmatique combinant 30+ ans d'architecture IT, integration, securite et cloud avec 5+ ans d'expertise intensive en IA generative, LLM, RAG, agents, automatisation et solutions privacy-first. Capacite a traduire des besoins metiers complexes en architectures IA concretes: data pipelines, APIs, model orchestration, securite, monitoring, documentation et passage en production. Profil oriente conseil client, PoC, benchmark, standardisation et accompagnement d'equipes techniques et metiers.

- Architecture IA/data/cloud: conception de solutions GenAI robustes, securisees, observables et integrables aux systemes existants.
- LLM engineering: prompt engineering, RAG, agents, evaluation, selection de modeles, optimisation qualite/latence/cout.
- Industrialisation: Python, FastAPI, Docker, APIs REST, CI/CD, monitoring, documentation technique et handover operationnel.
- Gouvernance: privacy-by-design, controle d'accès, RGPD, AI Act, DORA, auditability et gestion responsable de la donnee.
- Leadership: conseil client, vulgarisation, coaching, standards d'architecture et alignement business/IT/data/security.

### ADEQUATION DIRECTE AVEC LE ROLE DICE AI ARCHITECT

| Domaine demande           | Experience             | Preuves / valeur ajoutee                                                                                                |
|---------------------------|------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Architecture IA & data    | 5+ ans IA / 30+ ans IT | RAG, agents, data pipelines, APIs, securite, monitoring, documentation, architectures entreprise.                       |
| GenAI / LLM / RAG         | 5+ ans                 | Ollama/Mistral, OpenAI API, Claude, prompt frameworks, RAG, vector stores, evaluation qualitative.                      |
| Cloud & industrialisation | 8+ ans cloud           | Azure hybrid production, Docker, CI/CD, API-first integration; AWS/Bedrock: connaissance architecture et ramp-up cible. |
| MLOps / monitoring        | 8+ ans observability   | Prometheus, Grafana, ELK, logs, metrics, KPIs, feedback loops, runbooks et support production.                          |
| APIs / microservices      | 18+ ans                | API Gateway, API Manager, REST/SOAP, OAuth2, SAML, JWT, mTLS, 500+ policies, 10K+ TPS.                                  |
| Securite & gouvernance    | 20+ ans                | PKI, TLS, IAM, access control, audit, PSD2, PCI-DSS, DORA awareness, security-by-design.                                |
| Conseil & leadership      | 18+ ans                | 40+ projets clients, formation 200+ heures, mentoring, stakeholders metier/IT, vulgarisation.                           |

### PROJETS IA / GENAI PERTINENTS

#### NoXoZ\_job - Local RAG Agent for professional documents | 2024-present

- Architecture 100% offline pour generation documentaire et knowledge retrieval.
- Stack: Python, FastAPI, Ollama/Mistral, ChromaDB, SQLite, Streamlit, Docker Compose.
- Pipeline d'ingestion multi-format: Markdown, DOCX, PDF, JSON, XML; stockage vectoriel et recherche semantique.
- Demontre des patterns GenAI securises: controle local de la donnee, API, documentation, reutilisabilite.

#### NoXoZVorteX / AI conversation intelligence | 2024-present

- Analyse de 900+ conversations IA: extraction de competences, classification, structuration et export CSV/JSON/Markdown.
- Utilisation de prompts structures, traitement parallele, evaluation qualitative et exploitation de knowledge base.
- Pertinent pour benchmark, gouvernance des connaissances, classification, adoption IA et mesure de qualite.

#### Privacy-first Voice AI / Whisper local STT | 2024-present

- Transcription locale audio/video via Whisper/whisper.cpp avec zero cloud lorsque la confidentialite est critique.
- Integrations navigateur et workflows utilisateurs; focus confiance, securite, adoption et utilisabilite operationnelle.

#### Prompt engineering framework / AI operating standards | 2024-present

- Creation de standards de prompting et d'utilisation IA: contexte, contraintes, evaluation, format de sortie, controle qualite.
- Application a des assistants, agents, generation de documents professionnels et automatisation de workflows.

### EXPERIENCE PROFESSIONNELLE CIBLEE

| Role                                                                              | Periode        | Contribution pertinente pour DICE                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| AI Solutions Architect / Automation & Privacy-First AI Projects                   | 2024 - present | Conception de solutions GenAI locales et controlees: RAG, agents, prompt engineering, API FastAPI, Docker, ingestion documentaire, vector search, classification, transcription locale, evaluation et documentation. |
| ING Belgium - Service Chief Level 4 / Senior Middleware & Hybrid Cloud Specialist | 2019 - 2025    | Hybrid cloud Azure, integration de 150+ partenaires, CI/CD, monitoring Prometheus/Grafana/ELK, reduction MTTD 45min -> 3min, securite, documentation 200+ pages, mentoring.                                          |
| BNP Paribas Fortis - Senior Integration / API Security Consultant                 | 2017 - 2018    | API Gateway cluster, API Manager, 150+ developers, 60+ REST APIs, REST/SOAP, 200+ policies, OAuth2/SCA, eIDAS, PSD2, audit zero finding critique, documentation et workshops.                                        |
| Axway Software Belgium - Senior Consultant & Certified Trainer                    | 2007 - 2017    | 40+ projets clients en banque, assurance, gouvernement, telecom, retail, automotive; API/MFT/security architecture, training 200+ heures, standards, coaching et handover.                                           |
| Earlier infrastructure and system administration roles                            | 1997 - 2007    | Windows/Linux/UNIX, Oracle/SQL, migrations, support L2/L3, public sector, finance, helpdesk, system engineering; fondation technique large et operationnelle.                                                        |

COMPETENCES TECHNIQUES

| Domaine                 | Details                                                                                                                                                                       |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA / GenAI              | LLMs, RAG, agents, prompt engineering, ReAct-style workflows, model selection, evaluation, optimisation qualite/latence/cout, NLP, classification, embeddings, vector search. |
| Data & architecture     | Data ingestion, knowledge bases, ChromaDB, SQLite, CSV/JSON/Markdown/XML/DOCX/PDF, data governance, metadata, documentation d'architecture, principes et standards.           |
| Cloud & deployment      | Azure hybrid production, Docker/Compose, Linux, CI/CD, APIs, on-premise secure AI; AWS/Bedrock: architecture awareness, transferable cloud patterns and targeted ramp-up.     |
| Software engineering    | Python, FastAPI, Streamlit, Bash, REST APIs, Git/GitHub, structured logging, error handling, modular design, test mindset, automation.                                        |
| Integration enterprise  | API Gateway, API Manager, OAuth2, SAML, JWT, mutual TLS, REST/SOAP, OpenAPI, middleware, secure file transfer, enterprise integration patterns.                               |
| MLOps / observability   | Monitoring, logs, metrics, dashboards, evaluation feedback loops, Prometheus, Grafana, ELK, operational documentation, runbooks, support readiness.                           |
| Security & compliance   | Security-by-design, PKI, TLS, encryption, access control, GDPR/RGPD, AI Act awareness, DORA awareness, audit preparation, risk remediation.                                   |
| Leadership & consulting | Client advisory, PoC/benchmark leadership, stakeholder communication, simplification of complex topics, mentoring engineers/architects, standardisation culture.              |

CERTIFICATIONS, FORMATIONS ET LANGUES

| Categorie               | Details                                                                                                                                                                    |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formations IA recentes  | OpenAI API for Python Developers; Build REST APIs with FastAPI; Build with AI: Deterministic MCP Agents; OpenAI ChatGPT: Custom GPTs; Gradio interfaces; Codex automation. |
| Cloud & security        | CCSP preparation series completed: cloud concepts, data security, platform/infrastructure security, application security, operations, legal/risk/compliance.               |
| Professional validation | 30+ ans IT, 40+ projets clients, 98% success rate, 12 recommandations, Axway Certified Trainer, GitHub portfolio IA/security/automation.                                   |
| Langues                 | Francais: natif. Anglais: professionnel/conversationnel, documentation technique C1/B2. Neerlandais: professionnel intermediaire.                                          |
| Disponibilite           | Disponible rapidement pour mission contractuelle en Wallonie / Bruxelles / hybride. Mobilite Belgique et Luxembourg selon conditions.                                      |
