

BRUNO DELNOZ

Cloud & Virtualisation Engineer | G-Cloud, M365 & Virtualisation | Infrastructure Operations

Belgian nationality | Rochefort, Namur, Belgium | Brussels hybrid: 2-3 days onsite/week | Availability: 2-3 weeks
+32 456 88 24 57 | +32 475 38 11 44 | bruno.delnoz@protonmail.com | linkedin.com/in/bdelnoz | github.com/bdelnoz

TARGET ROLE FIT - AFSCA/FAVV CLOUD AND VIRTUALISATION ENGINEER

- Senior infrastructure, cloud and virtualisation engineer with 30+ years of IT experience across enterprise infrastructure, Windows Server, Active Directory/GPO, Linux/UNIX, networking, PKI, SQL, storage, operations and virtualisation.
- Strong fit for an Engineer G-cloud, M365 and Virtualisation role: 6+ years at ING Belgium on hybrid Azure infrastructure and high-availability operations, 20+ years VMware/virtualisation exposure including VMware Server since version 1.0, and long-standing Windows/Microsoft infrastructure background.
- Proven delivery in regulated and public-sector environments: ING Belgium, BNP Paribas Fortis, Axway enterprise clients, ATOS Worldline, Luxembourg banking sector and French Ministry of Finance / AIFE.
- Languages: French native, English fluent/professional, Dutch professional/intermediate.

REQUESTED SKILLS - YEARS OF EXPERIENCE AND PROJECT EVIDENCE

Skill requested	Experience	Relevant clients / project evidence
Active Directory + AD Administration	20+ years	Vedior HQ, Province de Luxembourg, Aubay / European Court of Justice desktop migration, Amsit / ING Belgium, ING Belgium operations.
ADFS with PKI solutions	5+ years	Related federation, SAML/OAuth2, certificate and PKI work on BNP Paribas Fortis, ING Belgium and Axway security/API Gateway projects.
Azure Active Directory	5+ years	ING Belgium hybrid Azure infrastructure, M365/identity integration contexts, Azure DevOps and secure Azure platform work.
Citrix NetScaler	Limited exposure	Adjacent experience with load balancing, HA, DMZ, WAF, reverse proxy and secure web infrastructure. NetScaler itself is not positioned as a core expertise.
Hybrid Cloud: Azure and Linux containers	8+ years	ING Belgium hybrid cloud migration to Azure; Azure VMs, VNets, ExpressRoute, Key Vault, NSG; Docker/Kubernetes/container readiness.
Infrastructure Operations	25+ years	ING Belgium, BNP Paribas Fortis, Axway clients, Province de Luxembourg, Vedior, Econocom, Aubay. L2/L3 operations, incident/root-cause, monitoring and production support.
ITIL	10+ years	Banking and enterprise operations environments: ING Belgium, BNP Paribas Fortis, Axway customer projects; incident, change, problem and release practices.
Linux distributions: Debian, Ubuntu, SUSE	25+ years Linux/UNIX	Strong Debian/Ubuntu and broader UNIX/Linux background: AIX, Solaris, HP-UX, RHEL/CentOS, Kali. SUSE exposure more limited.
Microsoft GPO	20+ years	Windows domain and workstation/server management: Vedior HQ, Province de Luxembourg, Aubay / European Court of Justice, ING support/infrastructure roles.
Microsoft PKI / AD with PKI solutions	15+ years	BNP Paribas Fortis PSD2/eIDAS/certificate work, Axway mutual TLS/API Gateway, ING secure infrastructure and certificate lifecycle contexts.
NetApp storage	Limited exposure	General SAN/NAS, LVM, RAID, Azure Storage, backup and DR architecture exposure. NetApp specifically is not positioned as core expertise.
Network technology: TCP/IP, Wi-Fi, protocols	25+ years	ING Belgium, BNP Paribas Fortis, Axway, ATOS Worldline; TCP/IP, VLAN, VPN, firewalls, DMZ, routing, Wi-Fi/security testing, banking protocols.
Office 365 & PowerShell	8+ years	Office 365/M365 and Teams operational usage, Windows automation, PowerShell for Windows/AD administration and operational tasks.
SCCM	Limited exposure	Related endpoint deployment experience including European Court of Justice 3,000 desktop migration; SCCM itself is not positioned as core expertise.

Skill requested	Experience	Relevant clients / project evidence
SQL	10+ years	Vedior HQ system and Oracle administration, SQL Server/Oracle exposure, integration, monitoring/reporting and operational data contexts.
Teams VoIP	5+ years	Enterprise Teams/M365 collaboration and communication usage, operational support context, meeting/voice usage. Not positioned as pure Teams Phone architect.
Trustwave SEG	No significant hands-on experience	Not positioned as a core skill.
Veeam	Limited exposure	General backup, DRP, HA and recovery experience across infrastructure roles. Veeam specifically is not positioned as core expertise.
VMware	20+ years	VMware Server since version 1.0, enterprise virtualisation exposure, ING Belgium/Axway customer environments, plus VirtualBox, Hyper-V and Azure VMs.
VMware NSX	Limited exposure	Adjacent experience with network segmentation, firewalling, VPN, DMZ and Azure networking. NSX itself is not positioned as core expertise.
VMware Tanzu / containers	Containers/Kubernetes: 5+ years; Tanzu: limited exposure	ING Belgium Kubernetes/cloud readiness, Docker/container projects, Azure hybrid cloud. VMware Tanzu specifically limited exposure.
Windows Client & Server	25+ years	Vedior HQ, Province de Luxembourg, Aubay / European Court of Justice, Amsit / ING, Econocom, ING Belgium. Windows Server, clients, domains, operations.

KEY STRENGTHS FOR THIS ASSIGNMENT

Microsoft infrastructure operations: Long-standing Windows Client/Server, AD, GPO, PowerShell and operational support background across public sector, banking and enterprise environments.

Virtualisation and hybrid cloud: 20+ years virtualisation experience including VMware Server since v1.0; Azure hybrid cloud implementation and operation at ING Belgium.

M365 and collaboration: Office 365 / Microsoft 365 and Teams usage in enterprise environments; PowerShell automation background for Microsoft infrastructure.

Security and PKI: Strong security architecture background: OAuth2, SAML, OpenID Connect, mutual TLS, PKI/certificates, eIDAS, PSD2 and PCI-DSS contexts.

Operations discipline: Production support, monitoring, incident handling, root cause analysis, HA/DRP design and documentation in regulated environments.

PROFESSIONAL EXPERIENCE

ING BELGIUM - Senior Middleware / Cloud Infrastructure Consultant MFT

September 2019 - September 2025 | Brussels, Belgium | Hybrid | 6 years

- Led technical aspects of a hybrid cloud migration from on-premise infrastructure to Microsoft Azure while maintaining continuity for 150+ file transfer partners.
- Worked in large infrastructure and operations teams managing mission-critical banking middleware, high availability, monitoring, incident response and daily operations.
- Designed and operated Azure infrastructure components: Azure VMs, Virtual Networks, ExpressRoute, Key Vault, NSGs and secure connectivity patterns.
- Implemented enterprise monitoring with Prometheus, Grafana, Elasticsearch and Kibana; reduced detection time from 45 minutes to 3 minutes.
- Delivered Azure DevOps pipeline automation reducing deployment time from 4 hours to 20 minutes; solution adopted by other teams.
- Relevant to this role: Azure hybrid cloud, Windows/Linux operations, virtualisation, network infrastructure, PKI/certificates, monitoring, ITIL-style operations.

BNP PARIBAS FORTIS - Senior Infrastructure & Integration Consultant

March 2017 - November 2018 | Brussels, Belgium | 20 months

- Designed and deployed a production-grade 4-node API Gateway cluster with high availability and disaster recovery principles.
- Implemented PSD2 compliance gateway with OAuth2, SCA, eIDAS certificate validation, mutual TLS, SAML/OpenID Connect and security policy enforcement.
- Connected 200+ backend systems and supported 150+ registered developers through API Manager and gateway infrastructure.
- Created architectural blueprints, technical documentation and operational handover materials for production support teams.

- Relevant to this role: PKI, certificates, ADFS/federation-equivalent concepts, high availability, infrastructure security, operations and documentation.

FREELANCE / LUXHUB / FOYER GROUP - Senior Middleware & Web Infrastructure Specialist

March 2017 - May 2019 | Belgium, Luxembourg, Switzerland, France

- Delivered API Gateway and Secure Transport projects for Luxembourg banking and insurance sectors, including PSD2 and secure data-flow architecture.
- Provided architecture consulting, implementation and coaching across regulated financial environments.
- Relevant to this role: security architecture, cloud/digital migration, M365 collaboration context, technical operations and stakeholder coordination.

AXWAY SOFTWARE BELGIUM - Senior Consultant & Certified Trainer

January 2007 - March 2017 | Belgium, Luxembourg, France, Netherlands, Morocco | 10+ years

- Delivered 40+ enterprise infrastructure, middleware, B2B/MFT, API and security projects across banking, insurance, government, telecom and retail sectors.
- Major clients/projects: ATOS Worldline global MFT architecture, French Ministry of Finance / AIFE, Luxembourg banking sector, ING Belgium, Fortis Belgium, Record Bank, Bpost Banque, Toyota, Bridgestone and others.
- Worked with high-availability, DMZ, firewall, load balancing, PKI/certificates, monitoring and production support requirements.
- Certified trainer for Axway API Gateway, Transfer CFT and XFB Gateway; delivered 200+ hours of training to 100+ professionals.
- Relevant to this role: infrastructure operations, network protocols, PKI, Linux/Windows environments, HA/DRP, VMware/virtualisation exposure and documentation.

EARLIER SYSTEM ADMINISTRATION & SUPPORT ROLES

1997 - 2007 | Belgium & Luxembourg

- Vedior Belgium HQ: System and Oracle Administrator - Windows servers/domains, Oracle, third-level support and internal IT operations.
- Aubay Luxembourg / European Court of Justice: system administrator and support Microsoft, including a fully automated 3,000 desktop migration project.
- Province de Luxembourg: Microsoft system administrator in Belgian public administration.
- Amsit / ING Belgium: system administrator and support Microsoft at ING.
- Econocom / Reuters: system engineer and support in finance, press and dealing room environments.
- Relevant to this role: Windows Client & Server, Active Directory, GPO, SQL/Oracle, endpoint/server operations, infrastructure support and early virtualisation.

TECHNICAL PROFILE

Microsoft / M365 / Windows: Active Directory, AD administration, Group Policy, Windows Client & Server, PowerShell automation, Office 365/Microsoft 365, Teams usage and operational support contexts.

Cloud / Virtualisation / Containers: Microsoft Azure, Azure VMs, VNets, ExpressRoute, Key Vault, NSG, Azure DevOps, VMware, VirtualBox, Hyper-V, Docker, Kubernetes/container readiness.

Linux / Infrastructure: Debian, Ubuntu, Kali, RHEL/CentOS, AIX, Solaris, HP-UX, systemd, patching, hardening, performance tuning, HA/DRP, storage and backup principles.

Network / Security / PKI: TCP/IP, VLAN, VPN, firewalling, DMZ, load balancing, WAF, OAuth2, SAML, OpenID Connect, JWT, mutual TLS, certificate lifecycle, eIDAS/PSD2 security contexts.

Data / Monitoring / Automation: SQL Server, Oracle, Prometheus, Grafana, ELK/Elasticsearch/Kibana, Bash, Python, PowerShell, CI/CD automation, technical documentation.

CERTIFICATIONS, TRAINING AND VALIDATION

- Axway Certified Trainer: API Gateway Trainer, Transfer CFT Trainer, XFB Gateway Advanced Trainer.
- CCSP preparation series completed: cloud concepts, data security, platform/infrastructure security, application security, operations, legal/risk/compliance.
- Microsoft background: MCP/Windows certifications and long-standing Windows Server/client administration experience.
- Professional validation: 40+ successful client projects across 6 countries, 98% success rate, 12 LinkedIn recommendations, strong endorsements in Integration, Security, Cloud and Unix.
