

BRUNO DELNOZ

RHEL / Windows Server Security Infrastructure Engineer | API Gateway & Security Networking Specialist

30+ Years IT | 20+ Years Security & Compliance | 18+ Years API Gateway | 40+ Enterprise Projects | Belgian | FR/EN/NL

Rochefort / Brussels, Belgium | bruno.delnoz@protonmail.com | +32 456 88 24 57 | github.com/bdelnoz | linkedin.com/in/bdelnoz

TARGETED PROFILE

Senior infrastructure and security engineer with 30+ years of experience across Linux/UNIX, Windows Server, security networking, middleware, API Gateway, monitoring, hardening and regulated banking/government environments. Strong fit for missions requiring RHEL/Windows deployment, secure configuration, DNS/network/security tooling, operational documentation in English and 3rd-line production support. Proven delivery at ING Belgium, BNP Paribas Fortis, Axway, ATOS Worldline and public-sector environments.

RHEL / Linux Security	Windows Server	Security Networking	Documentation & Support
20+ yrs Linux/UNIX, RHEL/CentOS, Debian/Ubuntu, Kali	25+ yrs administration, AD/GPO, PowerShell, Exchange context	25+ yrs TCP/IP, VPN, firewall, DMZ, WAF, PKI, TLS	English technical documentation, L3 support, incident response, knowledge transfer

ALIGNMENT WITH THE MISSION

Mission requirement	Bruno DELNOZ - matching evidence
RHEL 8.x+ deployment & configuration	Strong Linux/UNIX background including RHEL/CentOS, Debian/Ubuntu and Kali. Systemd, package management, security hardening, patching and operations.
Windows Server deployment & configuration	Long-standing Windows Server administration: AD, GPO, PowerShell automation, client/server support and infrastructure operations.
Microsoft Exchange / mail infrastructure	Exchange/security training background and operational exposure in Microsoft enterprise environments; also strong middleware, mail-flow and secure transfer experience.
LibreOffice distribution via GPO	Strong GPO and software deployment background, including large workstation migration experience; LibreOffice-specific packaging can be integrated quickly.
OS & device hardening	Linux hardening, CIS-style baselines, service minimization, firewalling, TLS/PKI, VPN, encryption and vulnerability remediation.
Security monitoring & events	Prometheus/Grafana/ELK delivery at ING, SIEM concepts, log aggregation, alerting, vulnerability scanning, incident support.
English technical documentation	150+ pages BNP documentation, 200+ pages ING documentation, certified trainer background, operational runbooks and handover materials.

REQUIRED TECHNICAL SKILLS MATRIX

Skill	Level	Relevant experience / positioning
RHEL 8.x+ / Linux security	High	20+ yrs Linux/UNIX; RHEL/CentOS, Debian/Ubuntu, Kali; hardening, systemd, scripting, patching.
Windows Server	High	25+ yrs Windows Server/client administration; AD, GPO, PowerShell, enterprise support.
Microsoft Exchange	Medium	Exchange/security training background; Microsoft enterprise operations and mail-flow/security understanding.
Networking & security networking	High	TCP/IP, VLAN, VPN, DMZ, firewalling, WAF, TLS/PKI, routing protocols, Wireshark, secure protocols.
F5 BigIP	Adjacent	Load balancing, HA, WAF, reverse proxy, DMZ architecture; F5-specific depth to be validated.
NGINX	Medium	HTTP/HTTPS, reverse proxy, TLS termination and Linux web infrastructure exposure.
SIEM Logpoint	Adjacent	SIEM/log management concepts; strong ELK/Grafana/Prometheus experience; Logpoint-specific ramp-up.
Zabbix	Adjacent	Monitoring/alerting expertise with Prometheus, Grafana, ELK; Zabbix concepts transferable.
Zimbra	Adjacent	Mail/collaboration infrastructure understanding; Zimbra-specific ramp-up.
Bind DNS	Medium	DNS/security/networking background; Linux DNS concepts, secure name resolution and troubleshooting.
BeyondTrust PAM	Adjacent	PAM, privilege management, least privilege and access-control principles; product-specific ramp-up.
Keycloak IAM	Adjacent/Medium	Strong IAM protocols: OAuth2, OIDC, SAML, JWT, MFA, federation; Keycloak-specific ramp-up.
SentinelOne	Adjacent	EDR/security operations and endpoint hardening concepts; product-specific ramp-up.
Tenable	Medium	Vulnerability management; Nessus/OpenVAS scanning experience and remediation prioritization.
ECOS BootStick / Genuscreen	Ramp-up	Secure boot/endpoint security concepts; no claim of deep product-specific experience.
HSM Utimaco	Adjacent/Medium	HSM integration concepts, PKI, certificate lifecycle, mutual TLS, eIDAS/PSD2 contexts; Utimaco-specific ramp-up.
API Gateway solutions	Expert	18+ yrs Axway API Gateway/API Manager; 500+ policies, OAuth2/OIDC/SAML/TLS, clustering, HA, 10K+ TPS.
RSA security technologies	Adjacent	Cryptography, PKI, MFA/security technology understanding; product-specific RSA suite depth to be validated.
Stormshield	Adjacent	Firewall/VPN/DMZ/security networking expertise; Stormshield-specific ramp-up.

SELECTED PROFESSIONAL EXPERIENCE

ING BELGIUM | Senior Middleware Integration Consultant / Infrastructure & Security Operations

Sept 2019 - Sept 2025 | 6 years | Brussels, Belgium

- Managed critical middleware and MFT infrastructure in a large regulated banking environment, with daily collaboration across infrastructure, security, vendor and application teams.
- Led technical aspects of hybrid cloud migration to Azure: Azure VMs, VNets, ExpressRoute, Key Vault, Storage, NSGs and secure operational continuity for 150+ partners.
- Designed active-active high-availability architecture for critical banking gateway services with zero unplanned downtime over 5 years.
- Built monitoring and alerting stack: 1000+ Prometheus metrics, Grafana dashboards, Elasticsearch/Kibana log analysis; reduced MTTD from 45 minutes to 3 minutes.
- Produced and maintained operational procedures, troubleshooting material, security documentation and knowledge-transfer material in English.

BNP PARIBAS FORTIS | Senior Infrastructure & API Security Consultant

Mar 2017 - Nov 2018 | 20 months | Brussels, Belgium

- Designed and deployed 4-node production API Gateway cluster and API Manager platform supporting 150+ developers and 200+ backend systems.
- Implemented PSD2/eIDAS security gateway with OAuth2, SCA, certificate validation, mutual TLS and real-time fraud/security hooks; regulatory audit passed with zero critical findings.
- Developed 60+ REST APIs and 200+ security/transformation policies covering authentication, authorization, rate limiting and REST/SOAP integration.
- Delivered 40 hours of training and 150+ pages of technical documentation; successful operational handover to BNP teams.

AXWAY SOFTWARE BELGIUM | Senior Consultant & Certified Trainer - Security / MFT / API Gateway

Jan 2007 - Mar 2017 | 10+ years | Belgium, Luxembourg, France, Morocco

- Delivered 40+ enterprise projects across banking, insurance, government, telecom and retail with 98% success rate.
- One of the rare Axway certified trainers: API Gateway, Transfer CFT and Gateway XFB; 200+ training hours to 100+ professionals.
- Implemented secure transfer, API Gateway, PKI/TLS, monitoring, high-availability and DMZ architectures for critical clients.
- Key projects: ATOS Worldline global MFT architecture, AIFE French Ministry of Finance security platform, Luxembourg and Belgian banking clients.

EARLIER INFRASTRUCTURE ROLES | Windows / Oracle / System Administration / Desktop Deployment

1997 - 2007 | Belgium & Luxembourg

- System and Oracle Administrator at Vedioir HQ: Windows server/domain administration, Oracle support, 3rd-line support and internal ICT coaching.
- Aubay / European Court of Justice: fully automated migration of 3,000 workstations, deployment tooling and Microsoft infrastructure support.
- Province de Luxembourg, Amsit/ING, Econocom/Reuters: system administration, network support, helpdesk, finance/dealing-room environments.

RELEVANT PROJECT HIGHLIGHTS

Domain	Clients / evidence
API Gateway / IAM / PKI	BNP Paribas Fortis, ING Belgium, LuxHub, Foyer, Deutsche Bank Luxembourg, Six Group Luxembourg - OAuth2, SAML, OIDC, JWT, TLS, certificates, API security policies.
Security Monitoring & Hardening	ING Belgium observability stack; GitHub security tools: scan_security, iptables firewall, ssh_control, LUKS encryption automation.
Networking / HA / DMZ	ATOS Worldline global MFT architecture, ING active-active banking gateway, BNP API Gateway cluster, DMZ/firewall/VPN/security networking.
Government / Regulated Environments	AIFE French Ministry of Finance: secure file transfer platform and ANSSI certification context; Belgian/Luxembourg banking compliance.

TECHNICAL STACK SUMMARY

Operating systems: RHEL/CentOS, Debian, Ubuntu, Kali, AIX, Solaris, HP-UX, Windows Server 2012/2016/2019/2022 Security: hardening, PKI, TLS/mTLS, VPN, firewalling, WAF, vulnerability remediation, audit support, DORA/PCI-DSS/PSD2 awareness Networking: TCP/IP, VLAN, routing, VPN, DMZ, DNS, secure protocols, Wireshark, protocol troubleshooting Monitoring: Prometheus, Grafana, Elasticsearch/Kibana, SIEM concepts, alerting, log management	Middleware / IAM: Axway API Gateway, API Manager, Transfer CFT, Secure Transport, Gateway XFB, Sentinel, OAuth2, OIDC, SAML, JWT Automation: Bash expert, Python, PowerShell, Ansible basics, shell tooling, deployment automation Web / Edge: NGINX concepts, HAProxy/load balancing concepts, HTTP/HTTPS, reverse proxy, TLS termination Documentation: architecture diagrams, runbooks, operational procedures, knowledge transfer, English technical writing
--	---

CERTIFICATIONS, TRAINING & LANGUAGES

- Axway API Gateway Certified / Axway Certified Trainer: API Gateway, Transfer CFT, XFB Gateway Advanced (2007-2016).
- Microsoft certifications and training: MCP Windows XP Professional, Microsoft Networking Essentials, Windows NT/2000 Advanced Server update, Exchange/security training context.
- Cloud & Security: CCSP preparation series completed (cloud concepts, data security, platform security, application security, security operations, legal/risk/compliance).
- Languages: French native, English professional/technical documentation C1 written, Dutch professional working proficiency.
